

HawkEye Elite® Alignment Systems

Greater profit and productivity through innovation

NEW!

HUNTER
Engineering Company

Hunter's latest productivity features!

PATENTED

New adaptor design!

- ▶ *Faster setups!*
- ▶ *No metal-to-metal contact!*
- ▶ *No knob twisting!*

PATENTED

New target design!

- ▶ *Lighter design!*
- ▶ *Narrower profile!*
- ▶ *Faster readings!*

HawkEye

Elite

NEW!

PATENTED

High-resolution cameras!

Four high-resolution cameras provide alignment measurements with pinpoint accuracy.

STANDARD

Recall specs in a snap!

Recall OE specs and vehicle-specific alignment procedures instantly.**

STANDARD

Patented steering system reset integration!

Reset computerized steering systems on a wide variety of vehicles with one simple tool.

EXCLUSIVE

QuickComp™!

Compensate all wheels and capture initial measurements in one motion.

EXCLUSIVE

New console design!

Integrated storage and charging for popular accessories.* †

EXCLUSIVE

Convenient storage!

Store targets within arm's reach to maximize productivity.

* Available only on mobile WA400 consoles.

** Standard with WA400 consoles, optional with WA300 consoles.

† Remote Indicator sold separately.

New QuickGrip™ wheel adaptors & three-dimensional

Hunter's patented QuickGrip™ adaptors and three-dimensional targets accelerate service with set-up times in seconds instead of minutes...

HawkEye Elite

Extremely Fast Installation

- ✓ Spring-loaded arms grip the tire
- ✓ Thumb switch secures the clamp
- ✓ Off-center clamping has no effect on accuracy

Avoid Damage to Expensive Rims

- ✓ Grips tire, not rim
- ✓ No metal-to-metal contact
- ✓ Only protective ring contacts rim

Less Weight

- ✓ Weighs only 6 lbs.
- ✓ Nearly 50% lighter than previous designs

Space-Efficient Profile

- ✓ Approx. 9" profile
- ✓ Easy to work around
- ✓ Great for narrow bays

targets

NEW!

PATENTED

Quick-Change Arms

- ✓ Interchangeable arms cover up to 37" assemblies
- ✓ One arm fits approximately 90% of applications

Deep-Wheel Extension

- ✓ Deep rims or protruding hubs, no problem
- ✓ Standard accessory

Wide-Angle Targets

- ✓ Perform max steer procedure, as needed
- ✓ Standard accessory

Low Maintenance

- ✓ Shop-tough polymer structure withstands drops
- ✓ No electronics, cables or calibration
- ✓ Only occasional cleaning required

Previous setups used valuable shop time...

Conventional electronic-sensor system – 10-minute-plus procedure

- ✓ Chock wheels and lift vehicle
- ✓ Jack up front and rear of vehicle
- ✓ Check air pressure and recall specs
- ✓ Mount all 4 sensors, compensate each sensor, and remove pins
- ✓ Lower rear and front of vehicle and jounce
- ✓ Steer caster
- ✓ Print results

10:05 Total

10:00+

ACTIVITY TRACKER

Older technology requires long set-up times...

Camera-sensor systems speed up the process

- ✓ Chock wheels and lift vehicle
- ✓ Check air pressure and recall specs
- ✓ Mount targets
- ✓ Roll backward, then forward to compensate
- ✓ Remove pins
- ✓ Steer caster
- ✓ Print results

4:00 Total

4:00

ACTIVITY TRACKER

Early camera technology improved efficiency...

...Today, present your results in just 90 seconds!

Hunter's HawkEye Elite® and Premium RX Lift capture all readings and produce measurements in 90 seconds!

Hunter's 90-second procedure

- ✓ Chock wheels and raise lift to work height
- ✓ Mount targets and set air pressure
- ✓ Roll forward to compensate sensors
- ✓ Scan VIN to recall specs and perform enhanced caster steer
- ✓ Vehicle results print automatically

1:30 Total

ACTIVITY TRACKER

total walking steps

Fast printouts in 90 seconds!

Use detailed printouts featuring your company's logo to sell more work.

FIA Fully Integrated Alignment

FIA streamlines the entire alignment process.

Communication links automate tasks once performed by the technician manually, eliminating time-consuming trips around the vehicle and to-and-from the console.

PATENTED

1

RX Scissor Lift console

- ✓ Raising the vehicle triggers the sensors to look for wheel targets
- ✓ Control PowerSlide® and Inflation Station settings on the lift console
- ✓ Store bar-code scanner and CodeLink tool near the vehicle to save steps

H *AlignLights turn on automatically at alignment height*

PATENTED

2

WinAlign® console

- ✓ Centralized control of entire system
- ✓ Communicate directly with lift to set tire pressure and automatically operate turnplates and slipplates
- ✓ Guide the technician through the alignment process

H *Measurements are taken automatically once the fourth target is installed*

PATENTED

3

PowerSlide® system

- ✓ Slipplates and turnplates automatically lock and unlock at appropriate times
- ✓ No more struggles with lock pins

H *Auto-locking turnplates and slipplates save trips around the vehicle*

PATENTED

4

Inflation Station

- ✓ Automatically inflate all four tires simultaneously
- ✓ Record starting and final pressure
- ✓ Hose recoils to keep work area clear

H *Software tracks before and after tire pressures for the customer's printout*

Use your aligner to perform an Alignment Quick Check!

Use detailed printouts featuring your company's logo to sell more work

- ✓ Total toe front and rear
- ✓ Camber on all wheels
- ✓ Tire wear indication
- ✓ Identifies vehicles that require electronic steering system reset

Step-by-step procedure for Alignment Quick Check

1. Pull car in and stop

2. Mount QuickGrip adaptors

3. Roll vehicle forward

4. Scan VIN

5. Remove QuickGrip adaptors

6. Get printout

7. Out of the bay in 58 seconds

8. Sell the alignment (when needed)

CodeLink® – The new last step in alignment service

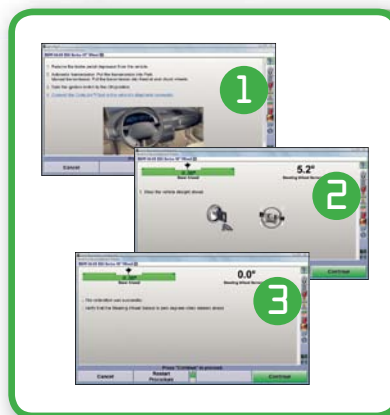

CodeLink® directly "links" the vehicle OBD-II to the aligner to reset steering system sensors, as required by the manufacturer.

Simple and efficient

- ✓ Automatically identifies candidate vehicles
- ✓ Incorporates reset steps into the alignment
- ✓ Uses aligner screen to display instructions
- ✓ Updates automatically with system software upgrades
- ✓ Dedicated alignment tool

One tool replaces multiple OEM scan tools

Simplified reset instructions replace confusing OEM procedures

Finishes the job right

- ✓ No other reset tool matches CodeLink's patented integration with the alignment procedure
- ✓ Guarantees precision with exact steering system sensor thresholds
- ✓ Reduces errors that result in customer comebacks

Printed documentation confirms that steering system reset was completed properly

Some of the more popular OEMs that currently require reset:
 Audi • BMW • Chevy • Ford • Hyundai • Infiniti • Lexus • Mazda • Mercury •
 MINI • Nissan • Pontiac • Saturn • Scion • Toyota • Volkswagen

When it comes to award-winning software, WinAlign® is unmatched!

The importance of software...

Over 30 years of experience and the largest R&D department in the undercar industry bring you the most profitable and productive software on the market.

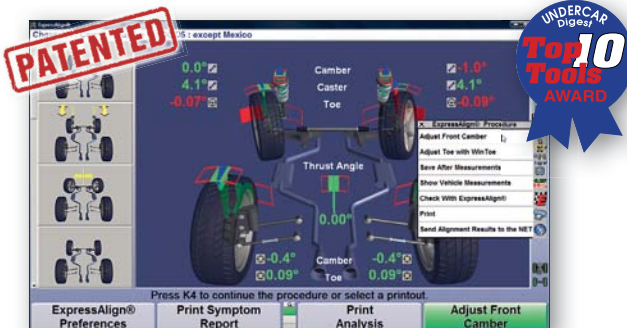

Ordinary systems simply present alignment readings

Ordinary camera systems simply speed up these readings

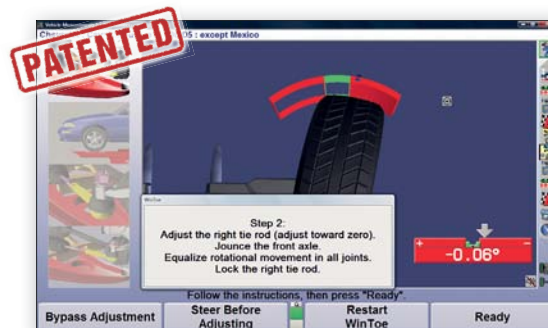

WinAlign maximizes profit and productivity in your alignment bay

- ▶ The **most extensive** vehicle information database for North America's 220 million vehicles.
- ▶ **Vehicle-specific** procedures guide your technicians with step-by-step instructions.
- ▶ **Patented and award-winning power tools** complete the work accurately the first time, every time.
- ▶ **WinAlign maximizes profit and productivity in your alignment bay.**

ExpressAlign®

Perform every alignment with a streamlined procedure. ExpressAlign analyzes each job and presents the optimal action sequence with the minimum steps required.

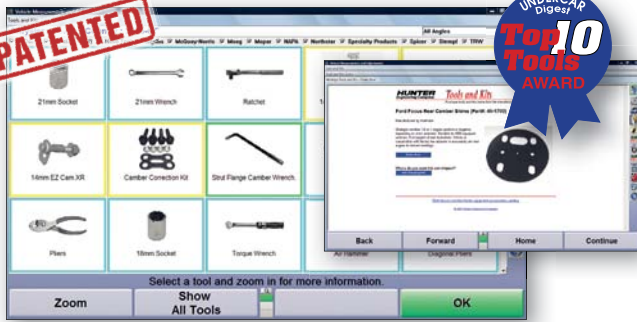

WinToe®

Ensure a straight steering wheel every time without repeated adjustments or using a steering wheel holder.

A timesaver on nearly every alignment

PATENTED

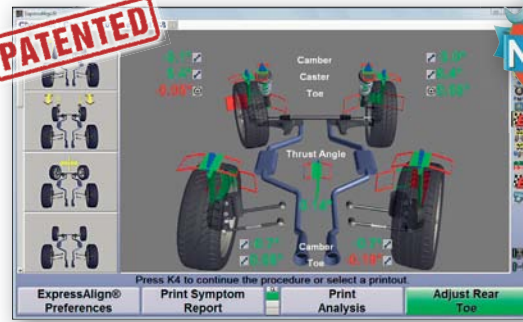

Tools and Kits Database

Save trips back and forth to the tool box. Hunter presents all of the tools and aftermarket correction kits needed for each alignment.

Online ordering supported

PATENTED

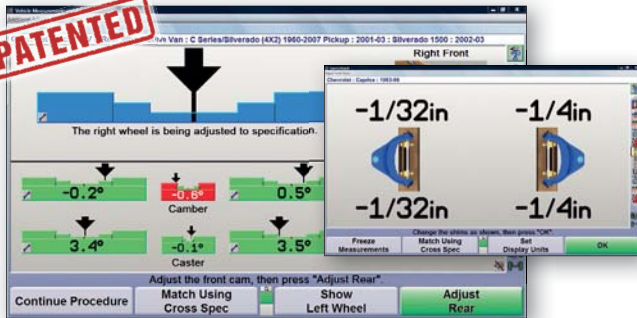

Virtual View®

See your alignment job in 3-D using real-time 3-D graphics. Used by experts and novices alike.

Every alignment can be shown in 3-D

PATENTED

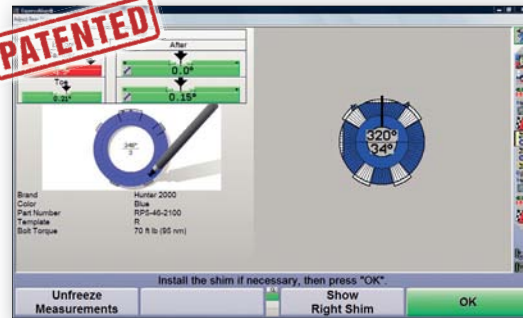

Control Arm Movement Monitor®

Cut adjustment times in half for front-shim, dual-cam or dual-slot vehicles. Step-by-step graphics let you get it right on the first try.

Over 60 million vehicles benefit

PATENTED

Shim-Select® II

Eliminate confusing shim charts and tables. Shim Select II quickly calculates and displays the template you need for proper shim installation.

Over 30 million vehicles benefit

PATENTED

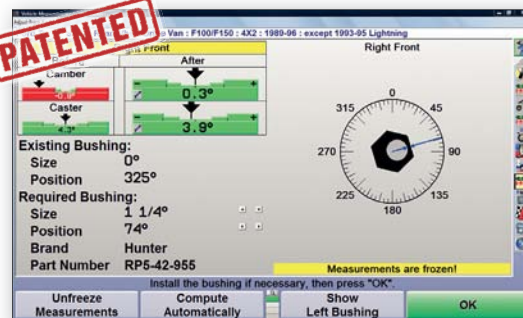

Wheel-Off Adjustment

Speed the alignment process by making adjustments with the wheel removed.*

Available when you need it

PATENTED

Automatic Bushing Calculator®

Calculate the proper bushing size and position adjustment without wasting time with a zero bushing.

Over 10 million light trucks and vans benefit

* For three-dimensional targets, both Wheel-Off Adjustment Kit and SCA Adaptor Kit 20-2664-1 is required.

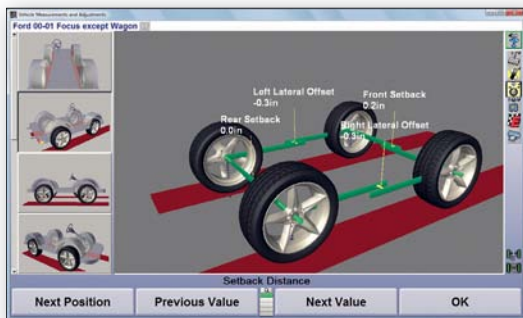

Take your alignment business to the next level!

Perform body shop alignments...

Suspension Body Dimension Audit

Quickly screen vehicles to determine alignability and collision repair needs.

Symmetry Angle Measurements

Instantly access symmetry angles and setback for your body shop customers.

Fast printouts to share with customers

Customize Hunter's detailed printouts to help explain service needs to customers or to document repairs.

Perform specialty alignments...

Live Ride Height Adjustment*

Measure and adjust ride height in real-time.

H Over 20 million vehicles require ride height measurement to complete alignment service

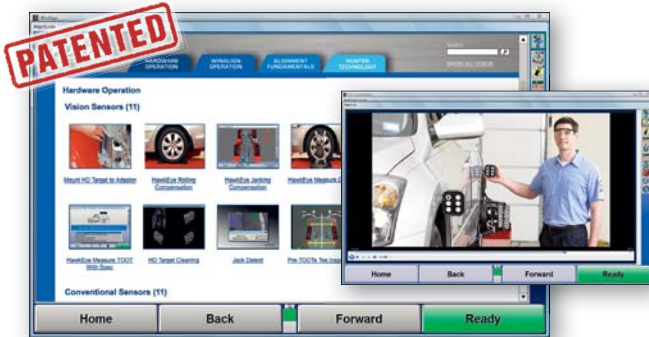

WinAlign Tuner*

Perform alignments on tuned suspensions and other modified vehicles with tools to monitor tire wear and handling.

*Standard with WA400 consoles, optional with WA300 consoles.

Help your customers make informed decisions!

WinAlign® Video Library*

400+ videos and animations cover all aspects of wheel alignment today.

- ✓ Educate your customers
- ✓ Find answers to unusual problems
- ✓ Extend your service and profit opportunities
- ✓ Strengthen technician competency

Point & Click Inspection Photos*

5,000+ vehicle-specific photos and illustrations to assist your shop.

- ✓ Show your customers their hidden repair needs
- ✓ Guide your technicians to the proper inspection points
- ✓ Extend your service and profit opportunities

The latest specs available online

Download, access and communicate alignment service information through the Internet.

- ✓ WebSpecs®.NET specification database
- ✓ ShopResults.NET® online service* †
- ✓ UnderCarInfo.NET subscription* †

WinAlign® printouts help sell work

Explain needed parts and repairs and show completed work to customers using detailed, color-coded printouts.

H Clear and detailed printouts help you communicate and build rapport with your customers and sell more alignments

* Standard with WA400 consoles, optional with WA300 consoles.

† Two-year free subscription for WebSpecs.NET, one-year free subscription for ShopResults.NET and UnderCarInfo.NET.

TPMSpecs® brings concise TPMS information to your business!

TPMSpecs® pulls together **over 100** TPMS procedures into a simple, yet comprehensive, user-friendly format for the technician.

Hunter TPMSpecs available at check in too!

Present TPMS info to your customers through any internet-connected shop computer!

Additional features enhance alignment service!

Drive-on camera

Safely and easily position a vehicle on a lift with one technician. WinAlign® software supports the use of a drive-on camera, which uses the aligner screen as a guide. (Drive-on camera sold separately.)

Adjustable Clamp Arms

OPTIONAL

One set of adjustable arms covers the same clamping range as standard multi-arm kit.

NEW!

Choose the right sensor package for your shop!

Fixed-column configurations fit most service bay applications.

Motorized and manual movable-camera configurations provide a full range of vertical travel for additional lift height.

Cabinet-mounted configuration is mobile to service multiple alignment bays and provides a full range of travel for additional lift height.

Wall- and ceiling-mount configurations are perfect when space is at a premium.

Floor-mounted overhead configurations are ideal for drive-through bays or to accommodate unique applications.

HawkEye Elite® sensors (HE421) come equipped with QuickGrip™ adaptors and three-dimensional targets.

HawkEye Elite[®] alignment sensor and adaptor specifications

Specifications	PATENTED	No metal-to-metal contact with wheel	Standard
		Weight of assembly	6 lbs.
		Profile of assembly	9 inches
		Installation time per wheel	5 seconds
		Rolling compensation style	Forward
		Camera resolution	2,608 x 1,952 (pixels per camera) 20,000,000 (pixels total)
		Track width	80 inches
		Wheelbase	210 inches
