

LM-500

Heavy Duty Air Operated Tire & Wheel Lift

FEATURES

- ★ Lifts up to 500 lb. tire/wheel assemblies
- ★ Steel rollers with high quality bearings allow the tire to roll with ease for lug nut alignment
- ★ 4 high quality rotating casters (2 lock) for maximum maneuverability while operating under maximum load
- ★ Responsive single lever air control to raise and lower the lift
- ★ Convenient tool tray
- ★ Maximum roller height: 44"
- ★ Made in USA

REDUCE INJURY POTENTIAL

IMPROVE PRODUCTIVITY

MOUNT & DEMOUNT WITH EASE

Heavy lifting accounts for 20% of all workplace injuries. The LM-500 provides the operator with a safe and easy way of removing or installing the heavy duty tire/wheel assembly on today's heavy duty vehicles.
